OBJECTIVE

Dedicated and proactive Cybersecurity Analyst with a strong background in customer service, leadership, and problem-solving, seeking to contribute to the security operations of a forward-thinking organization. Having recently completed the AWS Cloud Practitioner and the CompTIA Security+ certifications, I am ready to apply my incident response, security monitoring, and cross-functional collaboration skills to support and enhance cybersecurity operations effectively.

KEY STRENGTHS & SKILLS

- **Cybersecurity Knowledge**
- **Problem-Solving and Technical Skills:** Familiarity with Python, SQL, and JavaScript
- **Written and Oral Communication**
- **Team Collaboration**
- **Ability to Learn and Grow**
- **Attention to Detail and Time Management**

PROFESSIONAL EXPERIENCE

Associate Testing Specialist

Aetna/CVS — March 2025 to Present

- Using tools such as QNXT, TDM, and STAF, I test each solution document's change to medical contracts, fee schedules, and benefit plans.
- Collaborate with various managers and cross-functional teams to make sure that each testing requirement and criterion are met to satisfaction
- Collaborate with my team members and managers to make sure to keep our solution document inventory at an acceptable level

Claims Benefit Specialist

Aetna/CVS — June 2022 to Present

- Collaborated with cross-functional teams (pre-authorization, contract, pricing) to manage Medicare Part C claims and resolve issues, ensuring compliance with regulations.
- Identified potential operational risks in claims processing, assisting teams in mitigating issues before escalation.

- Communicated effectively with internal stakeholders, ensuring a clear understanding of issues and providing incident updates to senior management.
- Acted as a Subject Matter Expert (SME) in training, guiding new hires on processes and troubleshooting.
- Documented and tracked issues, managed case details in internal ticketing systems, and reported on incidents and resolutions.

Customer Care Representative

Caremark/CVS — November 2020 to June 2022

- Managed customer service escalations related to prescriptions, ensuring issues were addressed promptly and professionally.
- Collaborated with other teams to resolve complex cases involving specialty medications and pre-authorizations.
- Provided detailed reports and updates to stakeholders, maintaining accurate customer issues and resolution records.
- Facilitated the timely resolution of issues, ensuring service level agreements (SLAs) were met for incoming calls and support tickets.
- Mentored new team members on processes, security practices, and customer service protocols.

Assistant Store Manager / Cashier

Circle K — November 2018 to February 2021

- Supervised a team of 5-7 employees, ensuring compliance with company policies, procedures, and security standards.
- Managed daily operations, including inventory control, sales reconciliation, and maintaining transaction records.
- Trained and mentored employees on operational best practices, improving overall efficiency and customer satisfaction.
- Led a team in managing risk during daily operations, ensuring security standards were followed and reducing operational issues.

EDUCATION

Master of Information Systems Management (Concentration in Information Security)

DeVry University — Dec 2022

Bachelor of Criminal Justice

University of Memphis — May 2015

CYBERSECURITY CERTIFICATIONS

- **Google Cybersecurity Professional Certificate**
- **CompTIA Security+**
- **AWS Cloud Practitioner**
